There was a discussion of University Policies that are under review. The expedited policy change allowing programs to move to the 120 credit minimums was discussed. There were concerns about the impact of the new Diverse Cultures requirements on the timeline of 2009-2010.

The Math Placement policy was discussed. The proposed new policy allows for use of ACCUPLACER scores in the placement criteria. It was agreed that the table used for placement was confusing and needs to be reworked.

There was a discussion of the response to MnSCU concerning the transfer curriculum.
